

كتاب العربية التفاعلي لثلاثين يوما

30-Day Adaptive Modern Standard Arabic Workbook

Daily lessons, guided practice, checkpoints, and teacher feedback

Learner profile

Track: Modern Standard Arabic (MSA)

Starting point: basic learner

Daily commitment: 45–60 minutes

Priority: balanced listening, speaking, reading, and writing

Instruction: English support with increasing Arabic immersion

A systematic, assessment-driven course. Complete work directly on printed pages or annotate the PDF, then submit the completed pages or clear photos/scans for evaluation.

Your learning contract

Use this workbook for one focused lesson per day. Do not rush to “finish.” The objective is retained, usable Arabic. On assessment days, work without notes and submit the pages before correcting them.

Standard lesson protocol

Prepare: quiet space, pen or PDF annotation, vocabulary log, and optional voice recorder.

Say every Arabic model aloud three times: slowly, naturally, then from memory.

Complete controlled work before open production.

Mark uncertainty with ? rather than guessing invisibly.

End by recording errors and a confidence score from 1–5.

How teacher adaptation works

Submit completed pages or clear scans/photos at Days 1, 7, 14, 21, and 30; daily submission is welcome. Feedback will identify error patterns, assign a repair code, and replace or revise upcoming work where needed.

Repair codes

P — pronunciation/sound contrast

S — script, spelling, or letter connection

M — morphology/verb or word pattern

G — grammar/agreement/sentence structure

V — vocabulary retrieval or word choice

C — comprehension strategy

F — fluency, speed, or conversation management

Scoring interpretation

- 90–100: advance and increase authentic/open-ended work.
- 80–89: advance with targeted review.
- 70–79: advance cautiously; add a repair set.
- Below 70: reteach the weak objective before adding related grammar.

Day 1 diagnostic record

Complete this before consulting lesson notes. It establishes the real starting point; it is not a pass/fail test.

A. Script and sound (20 points)

Write the alphabet from memory. Then read aloud: ب، ب، ب، ب، ثوب، حب، خبز، عربي، غرفة، قريب.

B. Vocabulary (15 points)

Write any 15 Arabic words you know and give the English meaning.

C. Grammar (20 points)

Write five correct Arabic sentences about yourself. Include one negative sentence and one question if you can.

D. Reading (20 points)

كبيرة. أدرس العربية كل مساء لأنني أحب اللغات. في يوم الجمعة أقرأ كتابا وأشاهد برنامجا قصيرا.
اسمي نور، وأنا طالبة في الجامعة. أسكن مع أسرتي في مدينة

In English, state the main idea and four details. Underline unknown words rather than looking them up.

E. Writing and speaking (25 points)

Write 60–80 Arabic words about who you are and why you want Arabic. Then speak on the same topic for 45–60 seconds without reading the paragraph.
